

# Northeast Chorale Annual Report

Calendar Year 2023

---

## Mission Statement

To cultivate community through music.

## Northeast Chorale By the Numbers...

2023 year in review

55

The Northeast Chorale welcomed 55 singers in 2023. That is the largest group since the chorale was founded in 2015. The majority attended both the spring and fall seasons. It was through the focus, dedication, and teamwork of the Northeast Chorale singers that the 2023 season was so successful.

5

We performed a total of 5 concerts in 2023. The chorale started the year with *...In Perfect Harmony* a concert of pops and Broadway tunes in June. After a summer off, the fall and winter seasons were packed with *Remember and Reflect*, and *Nine Lessons and Carols* at Gustavus Adolphus Lutheran Church.

30+

The singers of the Northeast Chorale learned a large repertoire of songs in 2023. Works by Eric Whitacre, Kim André Arnesen, Bob Chilcott, Johannes Brahms, U2, John Lennon, Paul McCartney, and many more were performed by the chorale.
